

# EVERY BRICK COUNTS

## what is the brick project?

In order to build our high school campus for our growing student population, we need to develop the right assets to support this. The construction of classrooms and dormitories, developing a robust team of qualified native leaders, and forging strategic partnerships is imperative to rolling out effective educational, health, and sustainability programs.

**Be a part of the Brick Project and help build the Raise the Roof High School. For every \$0.33 raised, 1 brick is added to new construction at Raise the Roof High School.**

**learn more at [raisetherooftacademy.org](https://raisetherooftacademy.org)**

**our goal is to raise \$\_\_\_\_\_ to build a high school in Uganda.**

Track progress by shading in the bar below based on the fundraising goal.

7,500 bricks = 1 wall | 30,000 bricks = 1 classroom

Keep going!

Yay! We've reached halfway!

Woohoo! We did it!
